SALIETHANOL (2-PHENOXYETHANOL)

Chemical name : Ethylene Glycol Phenyl Ether.
Brand Name : Saliethanol
INCI Name : Phenoxyethanol
CAS No. : 122-99-6
Molecular Weight : 138.16
Molecular formula : C₈H₁₀O₂
Structural formula :

TEST	SPECIFICATIONS
Appearance	Clear liquid
Odour	Faint Aromatic typical odour
Colour	Colourless
pH 1% solution	5.50 to 7.00
Specific gravity @ 20 ⁰	1.105 to 1.11
Assay by GC	Min. 99%
Free phenol, ppm	Less than 20ppm

Stability : Stable under normal conditions of use and storage.

Important Note: This document is for informational/sales purposes only. Please contact Salicylates (salicylates@vsnl.net) before writing specifications for this product.
